Notes of Wichita's Educational Institutions.

Fairmount College Notes.

The defeat of the State Normal by the college football team, was a notable victory. In weight and other particulars the teachers had the advantage of the home team. It was team work that won the game. The score of 12 to 0 was exceedingly agreeable to Fairmounters.

The Wellington Glass, from the Sumner county High School, will contest on the Fairmount gridiron tomorrow afternoon. The Wellington team has had excellent coaching and are expected to put up a great battle.

On Tuesday Fairmount's second team will play the Friends' second team. The game will be played at Friends' university.

On Friday morning the college chorus entertained the chapel with song recital consisting of three very choice selections, "God of Our Fathers," "Constance," "Farewell to the Forest," Mendelssohn; "The Vesper," Arr. Facer. This is the first appearance of the chorus this year and the singing was very commendable. The chorus is composed of thirty voices and is the best the university has ever produced.

The logic class, under Prof. Joy, will be organized next week to take the place of the psychology class, who finished their work this week.

The library has been increased by the following volumes: University algebra, two volumes; Microscopic Yacht Museum, history of Latin literature, Ancient Rome, treatise on Homiletic and Pastoral Melody; preparation and delivery of sermons; selected sermons, lectures on preaching; principles of psychology; ideal school, social laws, social and ethical interpretations; Life of Samuel Johnson; Dramatic Works, Emma, two volumes; Modern Theory of Solution; Scientific Foundations of Analytical Chemistry; Teaching of Chemistry, two volumes; Dictionary of Noted Names of Fiction; Dictionary of Quotations in Prose; Vanity Fair, Kidnapped, and Proudhonism of 1849 Proper Names.

Prof. Layler has been sick for three days this week and unable to attend to school duties, but is better at this writing and hopes to be with us again Monday. The other members of the faculty have united in making things move as smoothly as possible during his absence.

The Thursday morning rhetorical exercises were very interesting this week and the pupils acquitted themselves with credit. Misses Myrtle Conner and Grace Launderson rendered a duet and Miss Ellen Smith a piano solo. Mrs. Herford, an academy graduate and her sister, Mrs. Lehmer, were visitors during these exercises.

Meers, Will and A. G. Smith, and Mr. Robert Smith, of Andover, were visitors Friday. They expressed themselves as very greatly pleased by the improvements made on the academy building.

Mr. O. Mulvey, of this city, has very kindly donated considerable electrical and other apparatus to the academy to increase our facilities for experimental work in the physics laboratory. We are very grateful for this and hope eventually to make our laboratory equal to the best.

We wish also to express our thanks to these columns to Messrs. Greenfield Bros. for the new football which they recently donated. The boys of the football squad appreciate this very much.

Thursday afternoon our football team met the team from the W. D. C. and were

defeated 6 to 0. Although it was a defeat for the team, the boys are feeling very much pleased with the nice manly game which the business college played and hope to meet them again a little later.

Kelso School of Music Notes.

The afternoon recitals and musicals continue to be interesting. Last Thursday afternoon the members of Hyppatia and many other friends were the guests of Mrs. John McComb and Mrs. T. M. Deal, the ladies who assisted Mrs. Hays.

Makes Suggestions as to How to Build a Wichita.

To the Editor of the Eagle:
I would appoint a bill board and advertising manager with power to pass on and extinguish or destroy objectionable advertising. We have need of one.

Dig up your canna bulbs, put them in sack and hang them up in the cellar, where they will keep cool and dry.

Tear down these frost-bitten vines that hang about your porch.

Rake up the leaves and put them in the back yard, throw a little earth on them and save them for fertilizing.

It is remarkable to what extent some property owners will allow their buildings to be disfigured with theatre bills and bulletin boards for complimentary tickets.

I heard a number of the Chicago capitalists who visited our city this week, say that they had never been in a packing house before they visited ours.

One way to spread contagious disease in the public schools is found in the fact that the scholars are allowed to drink water from the same cup—ones or two tin cups at the same faucet, three or four hundred of them using a rusty cup, that becomes filthy from use.

On rainy days, when the white wings cannot clean the paved streets, I would employ them in cleaning the crossings on the principal streets in the city.

Don't you know that the town is small enough so that a tale of this gossip or an insinuation whispered about some one by a scandal monger to some one on Harry avenue, that it will
